

HUTCHINSON METRO CENTER
SO CENTRAL. SO CONVENIENT. SO SMART.

To Nicholas Capano and the Vantage organization,

We are extremely happy our organization made the decision to use your firm as our energy consultant. Running energy efficient is a major factor for us with all of the new development at the Hutchinson Metro Center. Prior to us working with your company we met with a number of energy consulting companies and ESCO's. Your ability to canvas the market, create energy buying strategies, conduct quarterly reviews and in-depth cost saving analysis has made it extremely easy for us to select your company.

Since the beginning of our relationship many of the tenants at the Hutchinson Metro Center have engaged your organization to save money as well. To date, we have only heard great feedback.

We look forward to working with you on innovative cost cutting solutions to our energy needs.

Sincerely,

Joseph Kelleher, RPA
President & Chief Operating Officer
Hutchinson Metro Center
